RESUMEN

Throughout my career, I have gained practical experience in software development, coding, and debugging. I excel in programming languages such as PHP, Java, JavaScript, and Python, and I stay up-to-date with emerging technologies and industry best practices.

I have experience collaborating with cross-functional teams, understanding project requirements, and contributing to the development of software solutions.

I possess excellent communication and analytical skills, which allow me to work effectively in teams, learn new technologies quickly, and contribute to the success of software projects.

EXPERIENCIA

Fullstack Developer | Freelancers del Paraguay

June 2025 - Present

- Implemented tailored software solutions using technologies such as PHP, Laravel, and Java to address distinct business requirements.
- Maintained and enhanced software applications utilizing PHP, Java, and Laravel, optimizing for modularity and scalability.
- Collaborated with multidisciplinary teams to deliver software enhancements for major national initiatives utilizing PHP, Java, and Laravel.

Intern | ITTI Digital

August 2023 - August 2025

Software Engineer | ITTI Digital

February 2025 - June 2025

- Executed unit tests and utilized debugging tools to validate functionality, ensuring robust software delivery with Java and PHP.
- Developed and delivered custom software solutions in response to targeted business needs using PHP, Laravel, and Java.
- Coordinated software test cycles utilizing Playwright, Cypress, Maestro from mobile.dev, and Postman to ensure robust verification of new and existing functionalities.

Support Analyst | Code100

November 2023 - February 2024

- Assisted senior engineers by supporting software development tasks utilizing PHP, Laravel, and Java to enhance project workflows.
 - Assisted in code reviews and debugging sessions by utilizing code analysis tools, ensuring smooth resolution of identified issues with Java, PHP, and Git.
 - Integrated industry-standard coding practices and design principles on software projects using Java, PHP, and Laravel.
 - Maintained accurate technical documentation for ongoing software system updates by leveraging Git version control and Markdown.
-

EDUCATION

Computer Science Engineering | Universidad Politécnica Taiwán-Paraguay

3,7, Asunción, 2023

- Exchange program in Taiwan from March 2022 to July 2023 at NTUST.
 - Honourable mention for my thesis on ML-Assisted sEMG analysis applied to fitness.
-

SKILLS

Backend: PHP, Laravel, Java, Javascript

Frontend: React, Javascript, HTML, CSS, Tailwind

Databases: SQL, PostgreSQL, Firestore

AI: Claude Code, Machine Learning, Deep Learning, Data Analysis, Data Mining, Python, Pytorch

Misc: Git, Docker, Postman, Selenium, Playwright
